

Future Leaders Award

New this year, the Future Leaders Award is presented to a PMAA member who has been recommended by the Future Leaders Chair and has demonstrated outstanding service, initiative, and commitment to PMAA by going above and beyond in their volunteer efforts. This person is identified by the organization as part of the upcoming generation expected to help lead PMAA and the industry through its next phase of growth; and is reasonably expected to remain engaged and dedicated to the industry for at least the next decade. This award complements PMAA's existing awards by formally recognizing emerging leaders for their service, commitment and volunteerism, guiding the Association into the future.

This year's recipient has been making meaningful impact as one of the founding members of the Future Leaders Committee since 2023, consistently contributing time, energy and leadership and being an essential part of the Committee's efforts to identify, develop and promote the next generation of industry professionals. He has consistently distinguished himself as one of the Committee's strongest advocates and fundraisers, actively soliciting donations and cultivating support from authorities, vendors and industry partners. But he never stops at status quo. Recognizing the opportunity to expand the established scholarship program, over the last year, he championed the creation of a larger fundraising initiative, the first Future Leaders Golf Classic.

From hours of planning, coordination, sponsor recruitment, logistics management and promotion, he approached the event with enthusiasm and determination. And the outcome exceeds all expectations, truly a result of the vision, passion and perseverance of our award recipient.

His leadership style is marked by humility, positivity and service. And he is committed to not only expanding his own technical knowledge but strengthening the municipal authority industry.

The first PMAA Future Leaders Award has been presented to Daulton George, Assistant Manager of the Warminster Municipal Authority.
