

## **DIRECTOR OF FINANCE – WATER AND WASTEWATER SYSTEM**

The Williamsport Municipal Water and Williamsport Sanitary Authorities are accepting applications for a Director of Finance for its water, wastewater, and stormwater systems. The successful candidate will have a four-year degree in finance, accounting, or in a related field such as public or business administration with an emphasis in finance. A minimum of ten years of relevant professional experience with increasing responsibility in municipal management with preference to candidates with experience with water, wastewater, and stormwater systems. Position requires strong knowledge of governmental or fund accounting.

The Williamsport Municipal Water and Williamsport Sanitary Authority are separate municipal entities which share a common Board of Directors and staff. This is a senior management position that reports directly to the Executive Director and is responsible for oversight of all the financial services and human resources of the Authorities. The Director of Finance works with senior management staff to develop and recommend operational and capital budgets, calculate appropriate user rates, and participates in long-term strategic planning and the drafting of policies. The ability to effectively communicate with customers, coworkers, regulatory agencies, the public, and the Boards of Directors is critical to the success in this position.

Interested applicants should submit a cover letter and resume to the Williamsport Municipal Water Authority and Williamsport Sanitary Authority, Attention: Michael Miller, at 253 West Fourth Street, Williamsport, PA 17701, or to [mmiller@wmwa-wsa.org](mailto:mmiller@wmwa-wsa.org). Applicants in the final stage of consideration will be requested to provide professional references and pass a pre-employment drug test. The Williamsport Municipal Water Authority and Williamsport Sanitary Authority are Equal Opportunity Employers.
