

# Laboratory Technician

The Derry Township Municipal Authority is seeking applicants for a full-time Laboratory Technician at a complex wastewater treatment facility in Hershey, Pennsylvania. Candidates shall have comprehensive knowledge and related experience in a laboratory setting. Typical job duties include performing routine laboratory tests and test preparation, preparing samples, maintaining lab equipment, and ensuring accurate data collection and documentation. The successful candidate shall have a familiarity with the understanding and use of laboratory instruments and various methodologies, as well as Pennsylvania and Federal Regulations. The successful candidate will typically work both independently and as part of a team.

We seek an employee with a professional manner that has good verbal and written communication skills, who is detail oriented, personable, and who can function successfully as part of a team. Minimum qualifications include graduation from high school with three to four years of work experience. Prior related laboratory work experience in the environmental field is preferred.

Applicants are subject to background checks and drug testing.

The starting pay is dependent upon applicant's qualifications including experience and education. We offer a comprehensive Authority-paid fringe benefit program. An application may be obtained by contacting Human Resources by email ([hr@dtma.com](mailto:hr@dtma.com)) or by calling (717) 566-3237 ext. 301 between the hours of 8 a.m. and 4 p.m. M-F.
