

Job Announcement

Position: Project Systems Specialist
Division: Finance
Rate: \$50,000-\$56,000

FLSA: Exempt
Posted: February 8, 2021
Application Deadline: 4:00 p.m., March 26, 2021

Summary:

The Pittsburgh Water and Sewer Authority is seeking a candidate for the position of Project Systems Specialist. They will be responsible for assisting with maintaining Engineering and Construction Department's project management information system (e-Builder), process modifications and implementation, project reporting, and support Engineering and Construction Department business needs.

This individual, under the supervision of the Senior Manager of Project Controls, will work closely with our internal staff and external vendors to deliver, maintain, and troubleshoot systems functionality through user feedback and knowledge of project management systems and practices.

Duties:

- Support in maintaining projects handled by the project managers through the e-Builder system structure including scope, budget, and schedule.
- e-Builder liaison between Engineering, Finance, Procurement, and assisting other PWSA departments utilizing e-Builder.
- Responsible for project setup which includes entry of project budgets, commitments, and purchase orders.
- Assists in identifying, defining and developing solutions to issues that arise in existing processes.
- Responsible for managing and updating Project Management Policies and Standard Operating Procedures (PMP-SOP) manual, while making quarterly updates to the manual with regards to new processes, policies, and procedures.
- Assisting and supporting e-Builder team with processing invoicing, contractor pay applications, and/or purchase orders conducted within or outside of e-Builder.
- Works to generate dashboards and reports for departments.
- Develops, tests, and produces e-Builder processes for Engineering, Finance, Procurement, and for other departments. Reviews and modifies existing processes and procedures to help streamline the system making it more efficient and effective.
- Works with project managers to ensure their projects are updated in e-Builder and are accurate throughout the project life cycle.
- Attends monthly Engineering and Project Controls meetings with all system users to ensure adequate functionality and problem resolution.
- Follow (or adhere to) policies and procedures to ensure the company has proper controls embedded in each process.
- Monitor internal controls related to all phases of project life cycles, by reviewing existing dashboards and/or reports.
- Distributes and updates notices relevant to the Project Management System.
- Assists with related user maintenance activities, such as setup, role assignment, role permissions, and license utilization.
- Performs data entry to ensure accurate tracking of budgets and schedules.
- Assist e-Builder training sessions, webinars, project audit sessions, and meeting invites.
- Performs other duties as assigned.

Background:

- Two to four-year degree in Business, Finance, Engineering or related field
- Must show two or more years of professional and project systems/construction management software experience.
- Proficiency in Microsoft Office Suite products, particularly Excel
- The successful applicant shall exhibit and/or demonstrate adequate knowledge of project management software (preferably e-Builder) or other related project management products (s) and must exhibit effective written and verbal communication skills. Confident and skilled in working independently and proficient in functioning in a team environment is desired.
